S43 | 08.11.2025 — Change Request (Brand Overview & Brand Voice: Post-Import Save State)
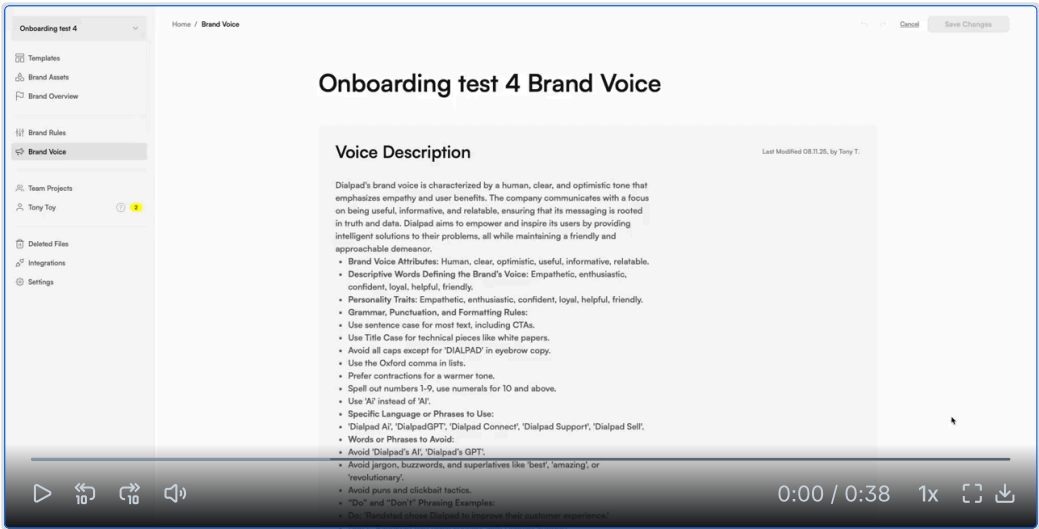

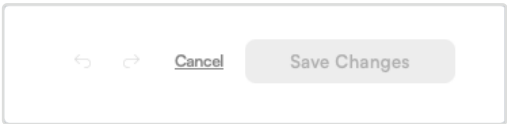

Item	Priority	Estimate	Note
☼ OBL-9914: Brand Overview & Brand Voice: Post-Import Save State `RESOLVED`			

Issue

- After importing, system enters edit mode which is correct, but [Save] button is disabled since nothing is marked as updated.

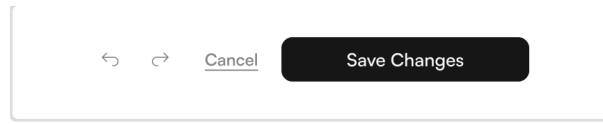

actual

actual

Expected Behavior

- [Save] button should be enabled immediately after importing training data so the user can proceed without additional edits.

Cancel **Save Changes**

expected

Acceptance Criteria

1. After any data import, [Save] button is enabled without requiring manual edits.

2. User can save imported content immediately after import.
